

On the Subject of Murking Minesweeper

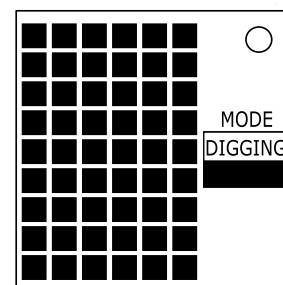

Somehow all the text on the manual page feels oddly redundant.

Locating the starting cell

Count [2nd number in SN] colored squares in reading order.

Find the color there and look it up in the color table for a number.

Take that number, then add [first letter in SN's numeric value]. Count that many colored squares in **reverse** reading order. That is your starting square.

Color	#
Red	5
Orange	2
Yellow	3
Green	1
Blue	6
Purple	4
